## BENCHTOP EXCHANGEABLE PLATFORM

Utilizing four interchangeable heads  
on the same common drive

# SLS - SCALABLE LAB SYSTEM™

## BENCHTOP EXCHANGEABLE PLATFORM

Achieve unparalleled milling flexibility and improved powder processing efficiency in a lab-scale environment.

Introducing one of the world's most advanced benchtop, multi-purpose powder milling and screening platforms, utilizing four interchangeable heads on the same common drive to facilitate five powder processing capabilities.

The SLS – Scalable Lab System™ affords the ability to quickly and easily interchange Fitzpatrick's FitzMill™, Quadro's Comil®, High-Efficiency Comil®, High Energy Comil®, and FlexSift Security Screening technologies.

The SLS will help you to achieve:

- **Unparalleled scalability**  
PSD and capacity scalable with simple operating parameters
- **Reduced capital investment & cost of ownership by up to 75%**  
ability to deliver five processes with a single, common drive
- **Processing flexibility**  
process samples as small as 5gm with minimal loss or up to 100 kg / hr - 95% product recovery for most products
- **Optimized particle size distributions (PSDs)**  
improve on-target PSDs by up to 50% over similar technologies
- **Protection of heat-sensitive products during milling**  
patent-pending screen designs lower temps as much as 30%

# TECHNICAL DATA

## Quadro® Comil® U5 / U5 High-Efficiency

- In-line, spacerless design
- Tight particle granulometry
- Wide range of scalable screens / impellers
- Low heat, fines, dust and overs

## Quadro® Comil® High Energy H5

- Primarily for APIs, fine chemical & cosmetic applications
- Narrow PSDs with 30-70% more on-target
- Integrated feed system for optimized containment and predictability

## Fitzpatrick Hammer Mill L1A

- Same process advantages of larger scale FitzMill™ comminutors
- Available with metered feed system, VFS
- Process samples as low as 5gm with 95% product recovery

## Quadro® FlexSift S5

- Inline security screener
- High-capacity (typical 500 kg / hr)
- Standard deagglomeration spoiler arm

# INNOVATIVE PRODUCTS BACKED BY WORLD-LEADING EXPERTISE AND SUPPORT

The Fitzpatrick Company and Quadro Engineering Corp. have earned the respect of customers for a combined period of over 120 years.

With over 40,000 equipment installations worldwide, discover what underscores our reputation for supplying high quality powder processing equipment solutions. Trust us to fulfill your specific application requirements.

Discover and experience the Fitzpatrick / Quadro difference!
