FITZPATRICK

FITZPATRICK LCS ROLLER COMPACTOR

LOW-VOLUME BENCHTOP SYSTEM FOR R&D & TRIAL BATCH PRODUCTION

Scalable benchtop, high-performance dry granulation from the most trusted name in roller compaction technology for more than 70 years.

Fitzpatrick is committed to improving the performance and profitability of our customers' powder processing operations.

We continually invest in customer-driven innovative solutions and provide long-term global support via our highly technical customer service and spare parts network.

Fitzpatrick LCS

- Ideal for proof-of-concept work or for smallest volume production
- Manufactured with Fitzpatrick high-precision, twin feed screw system
- 20 kN / cm roll force equivalent to production-scale systems
- Complete disassembly of all contact parts enables thorough cleaning that is quick & easy
- Touchpad control of all independent feed & compaction variables
- Consistent compaction mechanism ensures easy scale-up to larger production machines
- Design optionally available for containment systems
- cGMP software option
- Choice of roll surfaces

Fitzpatrick's LCS processes powders in the same way as larger production-scale systems. This ensures your development projects can progress to production with confidence.

Fitzpatrick offers multiple roller styles for maximum flexibility.
